

## MODEL US 3B MORTUARY REFRIGERATOR

This state of the art unit is designed for holding human remains at a minimum temperature of 35° F and is equipped with a door mounted temperature indicator, on/off switch, and a flush mounted door with magnetic seal. The door, ceiling, interior and exterior walls are fully insulated and constructed of 26 gauge Galvalume/Acrylume.

Three adjustable, removable shelves glide easily on a new rail design and their wooden core is completely enclosed by 26 gauge white steel on the top and 26 gauge Galvalume on the bottom. With shelves removed, the unit can accommodate a mortuary cart or caskets.

Shipped completely assembled for immediate operation. Just plug it in to a 115 volt outlet.
